

RIMSHA SAJID

Full Stack Developer Intern Candidate

rimshasajid612@gmail.com | [LinkedIn](#) | [Portfolio](#) | Karachi, Pakistan

OBJECTIVE

Motivated Full Stack Developer seeking an internship to apply hands-on skills in JavaScript, React.js, and Node.js. Eager to learn, collaborate with senior developers, and contribute to real-world projects while growing in a team-oriented environment.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, PHP, C#

Frontend: React.js, Redux Toolkit, Tailwind CSS, Material-UI, Three.js, GSAP

Backend: Node.js, Express.js, Laravel, ASP.NET MVC, RESTful APIs

Databases: MySQL, Microsoft SQL Server, MongoDB (familiar)

Tools: Git, GitHub, Vercel, Netlify, Visual Studio Code, WordPress

PROJECTS

Interactive Portfolio | *React.js, Three.js, GSAP, Tailwind CSS*

- Built a fully responsive portfolio with advanced 3D graphics and smooth animations
- Achieved high Lighthouse performance score; deployed via GitHub Actions CI/CD on Vercel

E-Commerce Platform | *ASP.NET MVC, MS SQL Server, WordPress*

- Developed complete e-commerce solution with CMS, payment gateway, and role-based authentication
- Built RESTful APIs for product management, order processing, and user roles

Real-Time Dashboard | *React.js, Redux Toolkit, Node.js, Laravel, MySQL*

- Created data visualization dashboard with WebSocket integration handling 100,000+ records
- Optimized database queries reducing execution time by 50%; improved frontend performance by 40% with Redux Toolkit

EDUCATION

Diploma in Software Engineering | Aptech Pakistan | Sep 2024 – Sep 2027 (Currently Enrolled)

Bachelor of Arts in Political Science | University of Karachi | Sep 2020 – Oct 2022

FREELANCE & SELF-LEARNING EXPERIENCE

Junior Full Stack Developer (Freelance) | *Self-Employed, Karachi* | Jan 2025 – Present

- Built full-stack web applications using React.js, Node.js, and Laravel for personal and client projects
- Deployed applications with GitHub Actions CI/CD pipelines; practiced Agile and code review workflows

STRENGTHS

Quick learner | Problem-solving | Team collaboration | Agile mindset | Attention to code quality | Meeting deadlines
